AERO ENGINES

Illustrated Parts Catalogue

OPTION

FORCED COOLING ALL METAL FOR UL260-ENGINES

AERO ENGINE

Please fill in your engine and aircraft details for further reference:

Engine Serial No. : .....

Aircraft type : .....

Model : .....

Serial No. : .....

Registration : .....

Introduction

Remarks

The illustrations in this Illustrated Parts Catalogue show the typical construction. They may not represent in full detail or the exact shape of the parts which have the same or similar function.

Modifications

All efforts are made to ensure the accuracy of this Illustrated Parts Catalogue at the time of publication. ULPower, however, maintains a policy of continuous improvement of its products without imposing upon itself any obligation to install them on its products previously manufactured.

ULPower reserves the right at any time to discontinue or change specifications, designs, features, models or equipment without incurring obligation.

Engine serial number

On all enquiries or spare parts orders, always indicate the engine serial number, as the manufacturer makes modifications to the engine for further development.

The engine serial number is located at the front left side of the crankcase (above oil filter).

Structure

Each section of this Illustrated Parts Catalogue starts with an exploded view or assembly drawing on the left side. The corresponding heading and the listing of the parts is on the right side and the following pages.

For each assembly drawing the right number of parts is listed in the relevant column. Because an engine can contain multiple times the illustrated assembly or a part can be used in several different applications, the total number of parts per engine is also given.

Generally all fasteners are tightened with a torque wrench. The "Notes" column indicates the appropriate torque or refers to extra information at the end of the section.

Revision

Revision 1 (2023-06-01)

Pg 4- 6: Nr 10: F2390406 was SE012506 (Stud for airbox forced Ø8 l=140.2) en BE012506 verwijderd
Nr 11: E130162 (Protection Oil Line) toegevoegd
Nr 40 toegevoegd

Pg 8: Detail foto toegevoegd.

Revision 2 (2025 - 04-30)

Pg 4- 7: Nr 43 toegeovoegd. (S8100400: Seal strip EPDM 10x4))
